- Support for children.

### Resources for Employers

- Information about how to secure child care for your employees.
- Tips about how to support working parents.

We are here to help during COVID-19. We are in this together.

We are local agencies that are collaborating to ensure that evolving COVID-19 guidelines and resources are accessible in one centralized location so that families are informed and supported, children are well cared for, and providers help stem, not spread the virus.

Providing child care during COVID-19 is challenging, with many new guidelines from various authorities. The **Santa Barbara County Emergency Child Care website** compiles Santa Barbara County, California, Community Care Licensing, and Centers for Disease Control and Preventions guidelines and best practices into one, easy to use document - the **Santa Barbara Child Care Guide for COVID-19**.

The website provides answers to your frequently asked questions and ensures you are up to date **about COVID-19**.

COVID-19 resources, information, and support for the unique needs of PROVIDERS, PARENTS/GUARDIANS, and EMPLOYERS is available online.
